WE SELL NOT ONLY GUNS, BUT ALSO DREAMS

About LCT

LCT is a professional airsoft manufacture focusing on AEG airsoft and accessories designing, developing, and manufacturing located in Changhua County, Taiwan. To make all products as realistic as possible is our ultimate goal. So far, LCT has introduced numerous high-fidelity electric airsoft of worldwide classic firearms. Our products are not only designed to achieve realistic materials and appearance but also focus on robust and durable mechanical structures and exceptional performance, ensuring the ultimate gaming experience that meets all consumer demands.

The predecessor of LCT Airsoft was Li Cheng Molding Company established in 1982. In the beginning of starting period, Li Cheng was a factory specializing in the development of molds for various materials such as metal, plastic, and wood. During this period utilized and integrated knowledge of processing techniques, including metal lathe work, cutting, stamping, extrusion, precision casting, forging, and injection. The industries we have ventured into include automotive parts, sports equipment, and medical devices. In 2004, LCT completed its first OEM project for airsoft, marking its entry into the airsoft industry supply chain. In 2007, a new brand "LCT Airsoft" was officially founded. The airsoft is an industry of requiring high professionalism and emphasizing the correctness on all details featuring outstanding appearance and mechanical performance. Until now, LCT continues to attend many important exhibitions worldwide, understanding consumer demands and trends in the airsoft market.

We take pride in various material processing expertise we have accumulated over 40 years. LCT is one of the few companies in the airsoft industry that performs integrated operations from development to manufacturing and marketing. We possess automated machinery, computer-aided design, and quality inspection capabilities that many other competitors do not have. If McDonald's is synonymous with burgers, then LCT is synonymous with highly realistic airsofts.

We are not complacent with our current achievements, especially given the significant changes in the global entertainment and consumer market following the pandemic. We have to confront post-pandemic economic downturns and increased competition within the industry, especially with more innovative electronic technology applications. How to address these challenges and maintain our leading position in high-end AIRSOFT products will continue to drive LCT's ongoing efforts forward.

Currently, we have partnered with a well-known electronic technology companies to gradually equip the ETU gearbox across our entire range of AEG models. In the near future, there will be more creative, modular, technologically advanced, and classic LCT models presented to AIRSOFT enthusiasts worldwide.

We sincerely invite you to join our global distribution partners. If you have any OEM/ODM needs, please feel free to contact us for inquiries.

Sobre LCT

LCT Airsoft está situado en Changhua County, Taiwan. Somos un fabricante enfocado en el diseño, desarrollo y fabricación de armas eléctricas de Airsoft. Hasta el momento, LCT Airsoft ha producido diferentes modelos de alta calidad de AK fabricados totalmente en acero. El diseño y la potencia de disparo son legales en los países a donde las exportamos. Nuestra meta final es fabricar armas de Airsoft lo más realistas posibles. Estamos seguros de garantizar a nuestros clientes la máxima calidad de nuestros productos con diseño realista y sólido además de un rendimiento estable.

El predecesor de LCT Airsoft fue la compañía Li Cheng Molding creada en 1982. En sus comienzos, Li Cheng fue un fabricante tradicional enfocado en moldeo y metalurgia. Después de acumular experiencia y respondiendo a las necesidades del mercado, Li Cheng gradualmente se transformó dentro del campo del desarrollo, diseño y fabricación de moldes asociados con partes para automóviles, deportes y equipamiento médico.

Durante los siguientes años, la industria del moldeo sufrió una homogeneización, competencia irracional y bajos márgenes. Li Cheng entró en el sector del Airsoft indirectamente a través de un proyecto OEM de otra compañía, y desarrollo satisfactoriamente varios modelos de AK. El Airsoft es una industria que requiere un alto grado de especialización y profesionalismo y exactitud en los detalles de los diseños características de las armas reales, así que visitamos diversas exhibiciones de Airsoft para tratar de conocer cual son las necesidades reales de los consumidores. En 2007, LCT Airsoft fue fundada oficialmente.

Además, LCT Airsoft es también capaz de aceptar contratos OEM / ODM. Tenemos mucha experiencia de cooperación con otras compañías. Bienvenido a contactar con nosotros para cooperación.

LCTについて

LCT AIRSOFT は台湾・彰化県に拠点を構え、電動ガンへのデザイン、開発、製造を一手に行うエアソフトガン開発のプロフェッショナル集団です。これまでにLCT AIRSOFT では数多くの非常に精巧なオールスチール製のAKシリーズの電動ガンをリリースし続けてきました。弊社製品は本体構造 / パワー双方の点において、弊社の各国の得意先の法律を遵守した仕様の製品を出荷しております。弊社が目指す究極の到達点は「極限までリアルな電動ガンを作る」という事です。弊社はリアルかつ頑丈な構造、そして安定した性能を誇る製品を供給し続ける事に絶対の自信を持っております。

LCT AIRSOFT の前身は1982年に設立された「利成金型会社」でした。会社の設立当初は伝統的な金型 / 金属製品を製造する会社でしたがその後様々な経験や市場のニーズに応えることにより、「利成金型会社」は自動車 / スポーツ / 医療関連装置の開発 / デザイン / 金型製作の分野へと事業をシフトしていきました。その数年後、金型産業は業者間の採算度外視の過当競争状態に陥り、非常に少ない利益しか得ることのできない状況へと突入していきました。

2004年、「利成金型会社」は某企業からのOEMを偶然請負った事によりエアソフト業界に参入し、多数のAKシリーズ電動ガンを開発 / 発売することに成功致しました。エアソフト産業は商品に関し、特に歴史的な観点 / 構造的特徴においてディテールの徹底的な検証・再現が強く要求される為、非常に高度な専門性を要求されます。このため弊社では様々なエアソフト業界の展示会などを訪れ、エアソフトファンの皆様が何を求めているのかを理解するように常に努力をし続けております。

2007年、LCT AIRSOFT が正式に設立されました。LCT AIRSOFT は引き続き、OEM/ODM 契約を請け負う体制が整っております。弊社はすでに数々の企業との事業を行ってきた実績がございます。弊社とのパートナーシップをご希望の際はお気軽にご相談下さいませ。
